

# I 6500 - AH

Finally! An air purifier for larger homes  
that attaches to central HVAC systems.

## Removes harmful impurities from the air

- VOCs from paint, furniture, and cleaning products
- Odors and fumes, including tobacco smoke
- Pet dander, dust, pollen, and other allergens etc

The AllerAir I6500-AH covers more than  
3000 sq. ft. Perfect for larger homes and  
commercial establishments.

- High dust and odor removal capabilities
- Multi-purpose filters that are easily changed
- Extremely quiet (54 dbA)
- Plugs into any 120-volt outlet

## Features:

### Carbon filter

1. "Adsorbs" and neutralizes gasses, chemicals and odors
2. Custom blends available for special needs

### Pre-filter - PRODENSE™ Patented

### HEPA filter

1. Deep-bed High Efficiency Particulate Air (HEPA) filtration
2. Traps 99.97% of airborne particles as small as 0.3 microns (1/233 the width of the average human hair)
3. Warm-rolled to prevent cracks at the folds
4. Laser-tested for quality and performance

### Control Panel:

- 2-speed, airflow switch
- System pressure gauge to monitor hepa filter change
- Internally fused for maximum current protection

The I6500-AH attaches to central HVAC systems,  
working in conjunction with heating and cooling units

\* I6500-AH units must be installed by a professional HVAC contractor.

A sound investment for the health and well-being of your family.
